## Table of contents

Table of contents.....	2
Introduction.....	5
Section I. Data on bank accounts, on the auditor (auditing firm), appraiser and financial adviser of the issuer, and also persons, who signed the issuer's report (quarterly report).....	6
1.1. Data on bank accounts of the issuer.....	6
1.2. Data on the auditor (auditing firm) of the issuer.....	6
1.3. Data on the appraiser(s) of the issuer.....	6
1.4. Data on advisers of the issuer.....	6
1.5. Data on persons, who signed the issuer's report (quarterly report).....	6
Section II. Main information on financial and economic condition of the issuer.....	6
2.1. Indicators of financial and economic activity of the issuer.....	6
2.2. Market capitalization of the issuer.....	6
2.3. Liabilities of the issuer.....	7
2.3.1. Borrowed funds and accounts payable.....	7
2.3.2. The issuer's credit history.....	7
2.3.3. Liabilities of the issuer from the provision given.....	7
2.3.4. Other liabilities of the issuer.....	7
2.4. Risks connected with purchase of placed (or being in the process of placement) securities.....	7
2.4.1. Industry risks.....	9
2.4.2. Country and regional risks.....	11
2.4.3. Financial risks.....	12
2.4.4. Legal risks.....	14
2.4.5. Risk of loss of good will (reputation risk).....	14
2.4.6. Strategic risk.....	14
2.4.7. Risks connected with the issuer's activity.....	14
Section III. Detailed information on the issuer.....	14
3.1. Creation and development history of the issuer.....	14
3.1.1. Data on the company name of the issuer.....	14
3.1.2. Data on the state registration of the issuer.....	15
3.1.3. Data on creation and development of the issuer.....	15
3.1.4. Contact information.....	15
3.1.5. Taxpayer identification number.....	16
3.1.6. Branches and representative offices of the issuer.....	16
3.2. Main economic activities of the issuer.....	16
3.2.1. Core economic activities of the issuer.....	16
3.2.2. Core economic activity of the issuer.....	16
3.2.3. Materials, goods (raw material) and suppliers of the issuer.....	16
3.2.4. Sales markets of products (works, services) of the issuer.....	16
3.2.5. Data on the issuer's licenses (permits) to perform some types of work.....	17
3.2.6. Data on activities of certain categories of issuers of securities.....	17
3.2.7. Additional requirements to issuers whose main activity is the extraction of minerals.....	17
3.2.8. Additional requirements to issuers whose main activity is the provision of telecommunications services.....	17
3.3. Plans of the future activity of the issuer.....	17
3.4. Participation of the issuer in bank groups, bank holdings and associations.....	18
3.5. Controlled economic entities of the issuer which have significance for it.....	19
3.6. Composition, structure and value of fixed assets of the issuer, information on plans for the fixed assets purchase, replacement, retirement, as well as on all facts of the issuer's fixed assets encumbrance.....	19

Section IV. Data on financial and economic activities of the issuer .....	19
4.1. Results of financial and economic activities of the issuer.....	19
4.2. Liquidity of the issuer, sufficiency of the capital and circulating assets .....	19
4.3. Financial investments of the issuer .....	19
4.4. Intangible assets of the issuer.....	19
4.5. Data on the policies and expenses of the issuer in the field of scientific and technical development, concerning licenses and patents, new developments and researches .....	19
4.6. Analysis of tendencies of development in the sphere of the core activity of the issuer .....	19
4.7. Analysis of factors and conditions influencing the issuer’s activity .....	20
4.8. Competitors of the issuer .....	22
Section V. Detailed data on the persons forming a part of governance bodies of the issuer, bodies of the issuer undertaking control over its financial and economic activities, and brief data on the staff (employees) of the issuer .....	22
5.1. Data on the structure and competence of the issuer’s governance bodies.....	22
5.2. Information on the persons forming governance bodies of the issuer.....	22
5.2.1. Issuer’s Board of Directors (Supervisory Board).....	22
5.2.2. Data on the sole executive body of the issuer .....	35
5.2.3. Collegial executive body of the issuer .....	36
5.3. Data on amount of remuneration and/or compensation concerning each governance body of the issuer ..	43
5.4. Data about the structure and competence of the bodies of control over financial and economic activities of the issuer, as well as on the organization of risk management and internal control systems .....	44
5.5. Information on members of the bodies of control over financial and economic activities of the issuer ....	44
5.6. Data on amount of remuneration and/or compensation on the body of control over financial and economic activity of the issuer .....	49
5.7. Data on the number and the generalized data on education and structure of staff (employees) of the issuer, and also on change of the number of the staff (employees) of the issuer.....	50
5.8. Data on any obligations of the issuer to staff (employees) concerning the possibility of their participation in the authorized capital of the issuer.....	50
Section VI. Data on participants (shareholders) of the issuer and related-party transactions of the issuer .....	50
6.1. Data on the total number of shareholders (participants) of the issuer .....	50
6.7. Data on accounts receivable amount .....	55
Section VII. Accounting (financial) statements of the issuer and other financial information .....	56
7.1. Annual accounting (financial) statements of the issuer.....	56
7.2. Interim accounting (financial) statements of the issuer.....	56
7.3. Consolidated financial statements of the issuer.....	56
7.4. Data on the accounting policy of the issuer .....	56
7.5. Data on the total sum of export, and on export share in the total amount of sales .....	56
7.6. Data on the essential changes which occurred in the structure of property of the issuer after the date of the last completed reporting year .....	56
7.7. Data on participation of the issuer in litigations if such participation can essentially influence financial and economic activities of the issuer.....	56
Section VIII. Additional data on the issuer and on the equity securities floated by it .....	57
8.1. Additional data on the issuer.....	57
8.1.1. Data on the amount, structure of the authorized capital of the issuer.....	57
8.1.2. Data on the change of the amount of the authorized capital of the issuer .....	57
8.1.3. Data on the procedure of convening and holding the meeting (session) of the issuer’s supreme management body .....	57
8.1.4. Data on commercial organizations, in which the issuer owns at least 5 percent of the authorized capital or at least 5 percent of ordinary shares.....	57
8.1.5. Data on material transactions completed by the issuer.....	57
8.1.6. Data on credit ratings of the issuer.....	61
8.2. Data on each category (type) of shares of the issuer .....	62

8.3. Data on the previous issues of equity securities of the issuer except for shares of the issuer .....	62
8.3.1. Data on the issues all the securities of which are repaid .....	62
8.3.2. Data on the issues the securities of which are not repaid .....	64
8.4. Data on the person (persons), who provided security on collateralized bonds of the issuer, as well on the terms and conditions of the security to perform obligations on the collateralized bonds of the issuer .....	67
8.4.1. Additional data on mortgage covering under mortgage-secured bonds .....	67
8.4.2. Additional data on security with cash claims under the issuer's secured bonds with cash claims.....	67
8.5. Data on the organizations which perform record keeping of the rights to the issuer's equity securities....	67
8.6. Data on the legislative acts regulating questions of import and export of the capital, which can influence payment of dividends, interests and other payments to non-residents .....	67
8.7. Data on declared (accrued) and (or) paid dividends per shares of the issuer, as well as on income from the issuer's bonds.....	67
8.7.1. Data on the declared and paid dividends per shares of the issuer .....	67
8.7.2. Data on the accrued and paid yield on the bonds of the issuer.....	71
8.8. Other data.....	76
8.9. Data on underlying securities and the issuer of the underlying securities, the property right to which is certified by Russian depositary receipts.....	76
Appendix to the issuer's report (quarterly report). Interim consolidated accounting (consolidated financial) statements prepared in accordance with International Financial Reporting Standards or other internationally recognized rules other than IFRS.....	78

## **Introduction**

Grounds of the issuer's obligation to perform information disclosure in the form of the quarterly report

*The issuer performed registration of securities prospectus in relation to securities*

*The bonds of the issuer were admitted to trading at the stock exchange with submission to the stock exchange of the bonds prospectus for such admission*

*The issuer is a public joint-stock company*

This quarterly report contains estimations and forecasts of the authorized governance bodies of the issuer concerning future events and/or actions, prospects of development of the economy sector, in which the issuer carries out its primary activity, and results of activity of the issuer, including plans of the issuer, probability of occurrence of the certain events and fulfillment of certain actions. Investors should not fully rely on estimations and forecasts of governance bodies of the issuer as actual results of activity of the issuer in the future can differ from those predicted for many reasons. Purchase of securities of the issuer is connected with the risks described in this quarterly report.

## **Section I. Data on bank accounts, on the auditor (auditing firm), appraiser and financial adviser of the issuer, and also persons, who signed the issuer's report (quarterly report)**

### **1.1. Data on bank accounts of the issuer**

*There were no changes in the information of this paragraph in the reporting quarter*

### **1.2. Data on the auditor (auditing firm) of the issuer**

*There were no changes in the information of this paragraph in the reporting quarter*

### **1.3. Data on the appraiser(s) of the issuer**

*There were no changes in the information of this paragraph in the reporting quarter*

### **1.4. Data on advisers of the issuer**

*Financial advisers for the reasons, listed in paragraph 1.4. of Appendix 3 to the Regulation of the Bank of Russia of December 30, 2014 No. 454-P "On Information Disclosure by Issuers of Equity Securities", within 12 months prior to the end date of the reporting quarter, were not involved*

### **1.5. Data on persons, who signed the issuer's report (quarterly report)**

Full name: *Igor Vladimirovich Makovskiy*

Year of birth: *1972*

Primary employment:

Company: *IDGC of Centre, PJSC*

Title: *General Director*

Full name: *Lyudmila Alexeevna Sklyarova*

Year of birth: *1958*

Primary employment:

Company: *IDGC of Centre, PJSC*

Title: *Chief Accountant - Head of Financial and Tax Accounting and Reporting Department*

## **Section II. Main information on financial and economic condition of the issuer**

### **2.1. Indicators of financial and economic activity of the issuer**

*It is not indicated in the 4th quarter*

### **2.2. Market capitalization of the issuer**

*Market capitalization is calculated as the product of the number of shares of the corresponding category (type) on the market price per share disclosed by the trade organizer*

Unit of measurement: *thousand RUB*

Indicator	As at 31.12.2018	As at 31.12.2019
Market capitalization	12 049 000	13 383 087

Information on the trade organizer at the securities market, on the grounds of which data calculation of the market capitalization is carried out, as well as other additional information on public circulation of securities at the issuer's discretion:

**PJSC Moscow Exchange, 13, Bolshoy Kislovsky Lane, Moscow**

**Phone: +7 (495) 363-32-32, +7 (495) 232-33-63, Fax: +7 (495) 234-48-40.**

**Web: <https://www.moex.com>**

## **2.3. Liabilities of the issuer**

### **2.3.1. Borrowed funds and accounts payable**

*It is not indicated in the 4th quarter*

### **2.3.2. The issuer's credit history**

The issuer's obligations execution in force during the last completed financial year and current financial year credit agreements and/or loan agreements is indicated, including concluded by issuing and selling bonds, the amount of principal debt for which was 5 percent or more of the carrying value of the assets of the issuer on the date of the last complete reporting period consisting of 3, 6, 9 or 12 months that preceded the conclusion of the agreement and other credit agreements and/or loan agreements, which the issuer considers essential.

*The issuer did not have such obligations.*

*The issuer had no obligations under the credit and/or loan agreements that were in force during the last completed reporting year and the current year, including those concluded through the issuance and sale of bonds, the principal debt of which amounted to five or more percent of the book value of the issuer's assets as of the end of 2018 and 2019.*

### **2.3.3. Liabilities of the issuer from the provision given**

*There are no specified obligations*

### **2.3.4. Other liabilities of the issuer**

*There are no other liabilities, which were not reflected in the accounting (financial) statements, which can significantly influence the financial position of the issuer, its liquidity, sources of financing and conditions of their use, results of activity and charges*

## **2.4. Risks connected with purchase of placed (or being in the process of placement) securities**

The issuer's policy in the field of risk management:

***In accordance with the Risk Management Policy (Minutes of the meeting of the Board of Directors # 06/16 of 17.03.2016) IDGC of Centre defines the following tasks and objectives of risk management:***

- strategic objectives - high-level goals, correlated with the mission of the Company;
- operational objectives - ensuring the efficiency of financial and economic activity and economic use of resources, as well as safeguarding the Company's assets;
- targets for reporting - ensuring the completeness and accuracy of accounting (financial), statistical, administrative and other reports;
- objectives in the field of compliance - compliance with applicable legal requirements to the Company and local regulations of the Company.

The tasks of the risk management system are:

- development of a risk-oriented corporate culture, dissemination by the executive bodies and the management of the Company of knowledge and skills in the field of risk management and the use of the possibility of effective exchange of information in the framework of the risk management system;
- improving the decision-making process and choosing how to respond to emerging risks in order to ensure the economic effectiveness of events for risk management and cost-effectiveness;
- reduction in the number of unforeseen events and losses in economic activity by expanding capacity to identify potential events and take appropriate measures (risk response);
- identification and management of risks in the totality of economic activities for more effective response to different impacts using, including, an integrated approach to their sets.

***The risk management system is based on the following principles:***

- Creation and protection of the Company's values. The risk management system contributes to achieving the goals and improving productivity, ensuring human health and safety, safety of all the Company's activities, complying with legal and regulatory requirements, environmental protection, improving service quality, operational efficiency, management and reputation.

- Risk management is an integral part of all organizational processes. Risk management is not a separate activity that is separated from activities and processes in the organization.
- Risk management is a part of the obligations of management and an integral part of all organizational processes, including strategic planning, and all processes of project management and change management.
- Risk management is part of the decision-making process. The processes of planning and decision-making are carried out taking into account the comprehensive risk assessment of their implementation. Risks are linked to the objectives of the Company and its subsidiaries.
- Risk management is systematic, structured and timely. Risk management is an ongoing cyclical functioning process. The systematic, regular and structured management of all types of risks is carried out on all key areas of activity, at all management levels of the Company. At the same time, information on identified risks in a timely manner should be provided to persons authorized to take appropriate decisions.
- Risk management is based on the best available information. The risk management system is based on sources of information such as historical data, experience and feedback of stakeholders, observations, forecasts and expert assessments. However, the decision-making authorities should inform each other about whether or not to take into account any limitations of the data, whether the simulation is used and whether emergence of difference of opinions between experts is possible.
- Risk management is adaptable. The Company should be provided with conditions for continued development of the risk management system with the need to meet new challenges arising from changes in the internal and external conditions of functioning of the Company.
- Risk management is transparent and takes into account the interests of stakeholders. Appropriate and timely involvement of stakeholders and, in particular, decision-makers at all levels of the Company ensures that the risk management system remains at an appropriate level and meets modern requirements.
- Risk management is dynamic, iterative (repetitive) and responsive to change. Risk management continuously detects changes and reacts to them. As soon as there is an external or internal event, situation or knowledge change, monitoring and review of the risks, including new risks, changing or elimination of existing risks is performed.
- Risk management promotes continuous improvement of the organization. The Company develops and implements strategies to improve risk management at the same time improving other processes. The Company is committed to improving the level of maturity of the risk management system on a par with an increase in the effectiveness of the internal control and risk management system.
- Responsibility for risk management. All participants of the risk management system are responsible for detection, assessment, analysis and continuous monitoring of risks in the framework of their activities, development and implementation of necessary measures for risk management, continuous monitoring of the effectiveness of the risk management measures.
- Principle of optimality. It analyzes the relative cost of implementing risk management measures, and the effect of the implementation of these measures, including the correspondence between the level of complexity of the risk management system and the level of complexity and the degree of importance of the object, analyzed in terms of risks. The volume and complexity of the risk management measures should be necessary and sufficient to meet the goals and objectives of the risk management system operation. Reducing adverse impacts and (or) the probability of risk is primarily carried out in relation to risks that occur with the highest probability and cause the greatest losses.
- Unity of the methodological framework. Risk management (identification, analysis, assessment and monitoring of risks, development and monitoring of the effectiveness of risk management measures) is carried out on the basis of approaches and standards, common to all structural units of the Company.
- Systematic approach - management of all types of risks is carried out on all key areas of activity, at all management levels of the Company.
- Leadership - the executive bodies and management of the Company ensure distribution of knowledge and skills in the Company in the field of risk management, as well as the possibility of effective exchange of information in the framework of the risk management system, promote the development of corporate culture of "management based on risk".
- Integrity - the risk management system is integrated into the strategic and operational management of the Company and its subsidiaries. The processes of planning and decision-making are carried out taking into account the comprehensive risk assessment of their implementation. Risks are linked to the objectives of the Company and its subsidiaries.
- Separation of levels of decision-making - decisions on risk management are taken at different levels of governance, depending on the significance of risks.
- Responsibility for risk management - every employee of the Company as one of his or her objectives considers risk management within his or her competence, knowledge and information available.
- Cross-functional interaction - the risk management process, affecting multiple areas of activity or the activity of several structural units within the same areas of activity, based on the collective decisions taken jointly, based on information available to various structural departments.
- A single information channel - the information security of the risk management system makes it possible to

promptly and fully inform about risks individual decision-makers.

- Rationality - the risk management system ensures cost-effectiveness of risk management measures. Risk reduction is carried out on the basis of economic feasibility.

### 2.4.1. Industry risks

According to the issuer's estimation, now deterioration of the situation in the industry may be connected with:

**1. Operational (industrial) risks**, connected with insufficient funding of the program of repair and maintenance, as well as the investment program, physical deterioration, infringement of terms of operation and drastic change of parameters of the equipment operation, which may lead to damage (failures) of equipment and destruction of constructions.

Poor condition of the equipment, caused by wear and tear and obsolescence, is one the principal causes of occurrence of industrial risks, the main of which are:

- down-grade rendering services on transmission of electric energy;
- failures of equipment with partial or full electric power not delivered with corresponding adverse social, environmental and economic consequences.

The probability of failure of electrical facilities (caused by damage) is at average level currently, at the realization of risks the consequences for activities of the Company may fluctuate from insignificant up to medium. For the purpose of minimizing of consequences of production risks, all the main industrial facilities of the Company are insured. Besides, a set of measures on maintenance of reliability of equipment and constructions is adequately carried out:

1. The automated asset management system was implemented and is in use, aimed to optimize processes of operation, maintenance and repair of electric grid assets and also to put in order the investment activity.
2. To decrease deterioration level, renovation and upgrading of electric power capacities is carried out on the basis of implementation of the innovative power equipment.
3. To ensure systemic reliability, measures are being developed and implemented to improve reliability, based on the results of a systematic analysis of the damage to elements of the electric grid complex.
4. The tender selection of the service and supplying organizations is implemented for the purpose of improvement of quality of these services and materials, the responsibility of counterparts and decrease in specific costs.

Risk management in the field of compliance with the industrial safety requirements of the Company is ensured by compliance with federal legislation in the field of industrial safety, as well as with the production control system for compliance with industrial safety requirements.

### **2. Risks connected with state regulation of tariffs for services rendered**

Transmission of electric energy through distribution grids and also grid connection to electric networks are regulated by the State.

The State realizes the policy of containment of increase of tariffs on product and services of natural monopolies. Increase of tariffs for electricity transmission is limited with a rate, established by the forecast of socio-economic development of the Russian Federation for the relevant year (hereinafter - the Forecast) or specific scenario conditions of the economy of the Russian Federation functioning, approved by the Government of the Russian Federation. At the same time, the increase in the federal components of the tariff (the cost of paying for the services of PJSC "FGC UES", the cost of purchasing electricity to compensate for losses in regional grids) is usually ahead of the grid tariff limit set by the Forecast.

Single-rate tariffs for the transmission of electric energy for other consumers for 2020 in the territory of the presence of IDGC of Centre, PJSC were approved as part of the Forecast limit - without exceeding the increase of +3%. At the same time, the growth rate for the maintenance of facilities of PJSC "FGC UES" amounted to +5.5%, the growth rate for the purchase of losses was 5.6%. Tariffs on the territory of the Tver region were set without an increase to the level of the second half of 2019 to prevent further growth in the volume of cross-subsidization in the region. In turn, transmission tariffs for the population of four of the eleven entities in the territories of the Company's presence (Kostroma, Kursk, Lipetsk, Tver regions) were approved with a decrease compared to last year due to the increase in the sales component of the final tariff due to bringing the necessary gross revenue of sales organizations to a reference level in accordance with applicable law.

The following measures are applied to minimize the risks:

1. On an ongoing basis, the work is done on the economic justification of costs included in rates, as well as on the inclusion of economically justified costs incurred in excess of recorded in rates and not received income for reasons beyond the Company's control of prior periods in tariffs.
2. Regular work on reduction of costs and investment program optimization is conducted.
3. Development together with PJSC "Rosseti" of initiatives to amend the existing legislation of the Russian Federation in pricing for natural monopolies to take the interests of distribution grid companies in setting tariffs for electricity at the retail market into account.

### **3. Environmental risks**

Environmental risks consist in possible hazardous emissions of stationary and moveable sources. To prevent possible negative impacts on the environment the issuer performs control over toxicity of burnt transport gases. On this ground the specified risks are minimal with insignificant consequences for the Company's activity in case of their implementation.

Environmental risks can be expressed in possibility of leakage of transformer oil at substations providing that there are no oil-receiving devices at surface water run-offs into a river or lake, it can cause pollution of water of fish economic importance with oil products. Probability of these risks is estimated as insignificant with insignificant consequences for the Company's activity.

The Environmental Policy of the issuer approved by the Board of Directors (Minutes # 21/17 dated 01.09.2017) serves as the instrument for reduction of environmental risks, the purpose of which is the consistent limitation of the load of the fuel and energy complex on the environment by reducing emissions (discharges) of pollutants into the environment and reducing the generation of production and consumption waste. In the framework of the implementation of the environmental policy, great importance is given to work with waste management of various hazard classes, which significantly reduces the risk of negative effects of toxic substances on the soil and, consequently, on human health.

Reduction of environmental risks is contributed by a multi-year program implemented by the issuer on change of oil circuit breakers to vacuum ones in distribution grids of 6-10 kV, and installation of reclosers, this reduces technological cycles of dielectric oils and excludes their penetration in the environment and necessity to bear expenses for recycling of used oils.

In the course of implementation of measures provided by a perspective program of technical re-equipping and reconstruction the Company changes elements and assemblies of electric equipment to modern, which design ensures high environmental safety of production.

### **4. Risks of receiving less income than one is due, connected with payment from retailers**

The main buyers of the issuer's services are retail companies, which carry out delivery of electric energy to end customers. The growth of the debt of retail companies to the issuer may be related to the violation of the payment discipline of end customers of electricity to the retail companies and the "misuse" of funds received from end customers, as well as the lengthy settlement of disagreements over the volume of services rendered in court.

The probability of the risk of shortfall in income due to non-payment of retail companies is high.

To reduce the probability of occurrence of risks of shortfall in income due to non-payment of retail companies and minimizing their consequences, the management conducts work on the well-thought credit policy, on management of debt receivable directed to optimization of its amount and collection of debt. The Company also performs active claim-related work on debt collection, implements policy of conclusion of direct contracts with electric power consumers.

### **5. Risk of uncertainty of limiting volumes of rendering services on transmission of electric energy**

The risk of uncertainty of limiting volumes of rendering services now consists in:

- absence in some Russian Federation entities and municipal formations of actual economic development plans with indication of trends of growth of power consumption for a certain period;
- probability of reduction of electric power consumption of the Russian economy in whole in connection with the adoption of Federal Law "On energy saving and on raising energy efficiency and on alteration of certain legislative acts of the Russian Federation" dated 23.11.2009 No. 261-FZ, commissioning of own facilities and power generation facilities and implementation of social norm of consumption;
- reduction by regional authorities of norms of consumption of utility services;
- reduction of electric power consumption in case of start of economic recession/crisis;
- reduction in the volume of electricity transmission services in the case of existing consumers connecting to the grid of PJSC "FGC UES" or generation facilities or in the event of a change in the internal scheme of electricity supply by the consumer with a view to reducing the amount of electricity supplied from the distribution grid organization's networks with increasing volumes of electricity supply from grids of PJSC "FGC UES" / generation facilities;
- reduction in electric energy consumption due to the downturn of markets for the largest industrial consumers;
- reduction in new connections or untimely execution of concluded contracts;
- reduction of the actual power of consumers due to changes in the load curve of consumption per day (load transfer to night hours with no reduction in consumption).

The specified circumstances make it impossible to perform exact forecasting of volumes of investments into the sector capable to satisfy demand for electric energy in medium-term and long-term prospect. These circumstances can also result in fall of profitable component of the issuer's budget within the long-term perspective. Basically, the given risk influences performance of obligations on rendering services on

transmission of electric power.

This risk probability is estimated as medium with medium consequences for the Company's activity. Minimization of the given risk is carried out by means of the following actions:

- work with the state bodies of the Russian Federation entities and institutions of local government on formation of plans of economic development of the region in the medium-term and long-term prospect;
- diversification with the portfolio of value-added services, provided by the Company.

#### ***6. Risks connected with shortage of qualified specialists in the industry***

At present inflow of qualified production personnel in the industry is reducing. Keeping the current reduction rates, the Company may confront with shortage of qualified production personnel in the regions of the service area. This risk is estimated as average within the long-term period with consequences for the Company's activity varying from insignificant up to medium. For the purposes of minimization of this risk probability the Company performs the following measures:

- support of industry secondary and higher industrial institutions in the regions of the service area, creation of financial support of implementation of the program on training of specialists in the field of electric power with subsequent guaranteed employment of trained specialists;
- implementation of programs intended to increase motivation and reduction of volumes of staff turnover, implementation of non-material motivation methods.

***The above risks are typical for the domestic market. The issuer does not and is not planning to carry out activities in the foreign market, parts and equipment are purchased abroad in small volumes. Industry changes in the external market cannot have a significant impact on the Company's operations and the fulfillment of its obligations under securities.***

#### ***7. Risks connected with possible change of prices for component parts and services used by the issuer in its activity (separately in the internal and external markets), and their influence on activity of the Company and execution of obligations under securities***

In the process of the activity, there can be risks connected with increase of prices for component parts, equipment and other material resources. The given risks are caused basically by inflationary processes and can be minimized by the following actions:

- increase of operational efficiency on the basis of realization of programs on decrease in industrial costs (creation of the competitive environment in the sphere of works and products purchases, optimization of expenses for repairs and operational needs and capital construction, etc.);
- centralization of purchasing activity (scale effect with purchases);
- increase in share of purchase of equipment and parts of Russian production (reduction of dependence on foreign currency fluctuations). At the current rate of inflationary processes, influence of the given risks on activity of the Company is medium at medium probability of risks.

The issuer does not carry out activities in the foreign market.

#### ***8. Risks connected with possible change of prices for products and (or) services of the issuer (separately in the internal and external markets) and their influence on activity of the issuer and execution of obligations under securities.***

For the Issuer this risk is associated with decrease of the tariff for electricity transmission services below the economically justified level.

The current pricing system allows artificial containment of growth of tariffs for services on electric power transmission by executive authorities of a Russian Federation subject in the field of state regulation of tariffs by establishing economically unjustified tariffs. This may result in the Issuer's uncompensated costs from the increase in the price of raw materials and services purchased by the Issuer, and the inability to adjust the tariffs on its products. The situation is made more complicated with the complexity of appealing Resolutions on the establishment of tariffs in arbitration court because of imperfections in the existing legislation in the field of tariff regulation.

The growth of prices for the Issuer's services has a risk of late payment by consumers for electric power transmission services.

In the Issuer's opinion, the impact of these risks on the Issuer's business and performance of obligations under securities has medium importance.

The Issuer does not carry out activities in the foreign market.

## **2.4.2. Country and regional risks**

### ***Country risks***

Currently, the Government of the Russian Federation is implementing its policy of containment of growth of tariffs for products and services of natural monopolies, this can result in shortage of financing of the Company's investment program. Within the framework of minimization of the foregoing risks the issuer

performs work on reduction of internal costs and optimization of the investment program as well as implements its well-thought-out policy in the field of taking out borrowed funds.

Political risks are beyond the control of the Company because of their scale, but within the framework of their minimization the Company conducts active work with superior and regulating organizations in common interests of the industry development.

### ***Regional risks***

The regional risks in the activity of the issuer are mainly as follows:

- disagreement of the authorized state tariff making bodies in part of economically proved costs declared by the Company for inclusion in the tariff;

- reduction of electric power consumption by large industrial enterprises of the regions.

The given circumstances can have essential influence on realization of the large-scale investment program of the Company, and their probability remains high. In order to decrease influence of regional risks on realization of the investment program, the Company interacts with the state bodies and other stakeholders for the purpose of the control and management of the choice of stakeholders concerning their actions in connection with investment projects of the Company. The Company also performs activities on optimization of the investment program financing for the account of reduction of internal costs.

The main political risk of the Company's activity at the regional level is possible change of the government of regions with subsequent change of the then current model of relations. The main consequences for the Company's activity under these risks are establishing a level of regional tariff lower than the economically grounded level.

At present probability of these risks is estimated as minimal with the consequences for the Company's activity from insignificant up to medium.

Within the framework of minimizing these risks, the Company conducts work on compliance of the long-term programs of development of regions in the service area of the Company's divisions with regional and local authorities, interacts with superior organizations on questions of activity in the regions.

### ***Risks, connected with possible military conflicts, introduction of state of emergency and strikes in the country and regions in which the issuer is registered as the tax bearer and/or carries out its primary activity.***

In case of occurrence of military conflicts, the Company bears risks of its fixed assets destruction. The probability of military conflicts and introduction of state of emergency in the country and in the regions of the service area of the Company is insignificant. In order to minimize the consequences of the risk, the Company has planned activities for transferring to work in a "special period".

### ***Risks, connected with geographical features of the country and region, in which the issuer is registered as the tax bearer and/or carries out primary activity, including the raised danger of acts of nature, possible interruption of transport communication due to remoteness and/or inaccessibility, etc.***

Geographic features of the region, in which the Company performs its activity, suppose risk of impact of abnormal spontaneous phenomena on the Company's electric grids within the heating period. These risks are estimated as high. The Company has implemented a set of measures on preparing of the grid for the autumn and winter period, each division is certified for readiness to the heating period based on the assessment of the Ministry of Energy of the Russian Federation. On an ongoing basis, work is underway to reduce the time to eliminate technological violations (the creation of mobile crews, the purchase of back-up power supply sources, exercises with regional authorities, etc.), necessary for prompt elimination of consequences of bad weather during the heating period.

The management on a mandatory basis submits to the Board of Directors a report on preparation for the autumn-winter period, as well as a report on outcome of the operation through the heating period.

## **2.4.3. Financial risks**

In the course of business, the Company is faced with factors that may lead to a shortage of funds for investment and operations. The most significant financial risk factors are associated with imperfect mechanisms of functioning of the retail electricity market and explained in the section "Industry risks". However, there are several risk factors potentially affecting the financial and economic activity as well.

### ***Inflation risks***

Negative impact of inflation on the financial and economic activity of the Company may be due to loss of real value of receivables, an increase in interest expense on borrowed capital, an increase in the cost of construction of items of the investment program, cost of materials, outsourced services necessary for operating activities that may have a negative impact on payment for shares of the Company.

According to the results of 2019, the Consumer Price Index is 103,04%, which is 1,56 percentage points lower than the level stipulated by the Company's business plan (104,6%) and indicates a decrease in the degree of this risk. A growth in the inflation rate may lead to an unplanned increase in the Company's operating expenses. At the same time, the rate on the Company's bond coupons is fixed for the entire period of circulation of securities and does not depend on the change in inflation.

To reduce the inflation risk the Company conducts a policy aimed at optimizing operating costs in accordance with the Program of performance management and reduction of expenses and conclusion of long-term agreements with suppliers and contractors.

#### ***Currency risks***

Adverse changes in foreign currency exchange rates against the ruble may affect the operating and investment performance of the Company. Foreign exchange risk does not have any significant effect on the Company due to the fact that settlements are carried out exclusively with counterparties in the currency of the Russian Federation. However, given that the range of goods and equipment purchased by the Company contains imported components, a significant increase in the exchange rate may lead to higher prices for purchased products. In this connection, the Company has a policy aimed at import substitution and signing long-term agreements that do not provide for the growth of prices for purchased products.

#### ***Interest risks***

In the process of carrying out its financial and economic activities, the Company attracts borrowed funds, and therefore is exposed to the risk associated with the possibility of changing interest rates on loans and borrowings.

The indicator of the macroeconomic situation in the country, which influences the cost of attracting credit resources, is the key rate of the Central Bank of the Russian Federation. During 2019, the Bank of Russia decided to reduce the key rate five times, as a result of which as at 31 December 2019 it reached 6,25% per annum. In these conditions, indicating a trend towards cheaper credit resources in the borrowed capital market, interest rate risks are characterized by a low probability of realization.

An increase in interest rates on credit resources may lead to an unplanned increase in debt servicing costs, which affects the Company's financial result, as well as the possibility of new borrowings.

In order to reduce the interest risk, the Company conducts a balanced credit policy aimed at optimizing the structure of the loan portfolio and minimizing debt service costs. Measures are being taken to ensure the diversification of available sources of debt financing. Selection of financial organizations for the provision of services is carried out through open competitive procedures, which makes it possible to attract borrowed funds on the most favourable terms for the Company.

#### ***Liquidity risks***

The Company's operations are subject to the influence of risk factors, which may lead to a decrease in the liquidity and financial stability of the Company. The most significant factor is the low payment discipline in the retail electricity market.

Low payment discipline of the issuer's counterparties leads to the formation of a large volume of accounts receivable, including overdue.

To minimize this risk factor, the Company monitors the capital structure and determines the optimal parameters for borrowing, and also takes measures to optimize the working capital structure.

Work with accounts receivable for electricity transmission is carried out in the following main areas:

- claims and lawsuits to reduce accounts receivable;
- introduction of full and (or) partial limitation of energy supply to consumers-debtors;
- presentation of penal sanctions to consumers-debtors for violation of payment obligations.

#### ***Influence of the financial risks on financial statements***

Changes in prices for electricity transmission in the first place will affect the total revenue of the Company and will have a significant impact on the net profit of the issuer.

Inflationary processes, resulting in appreciation of materials and raw materials used in production could have a material impact on the balance sheet total, with the increase in accounts payable and receivable impairment.

Also, inflationary processes in the economy of the Russian Federation may have a material impact on net profit of the issuer in connection with the fact that the issuer's ability to raise prices for electricity transmission is limited with the annual state regulation, that is, the issuer cannot vary according to changes in the rate of inflation and at the same time costs of the issuer, which are mainly denominated in rubles, vary according to the rate of inflation.

In the case of risks implementation, the following financial statements indicators are subject to the greatest changes: revenue, net income, the amount of accounts receivable and accounts payable.

The probability of financial risks occurrence is estimated as low and is associated with the general economic situation in the country.

#### 2.4.4. Legal risks

*There were no changes in the information of this paragraph in the reporting quarter*

#### 2.4.5. Risk of loss of good will (reputation risk)

*There were no changes in the information of this paragraph in the reporting quarter*

#### 2.4.6. Strategic risk

*There were no changes in the information of this paragraph in the reporting quarter*

#### 2.4.7. Risks connected with the issuer's activity

#### 2.4.8. Bank risks

The issuer is not a credit institution

### Section III. Detailed information on the issuer

#### 3.1. Creation and development history of the issuer

##### 3.1.1. Data on the company name of the issuer

Full company name of the issuer: *Публичное акционерное общество «Межрегиональная распределительная сетевая компания Центра»*

Effective date of the current full company name: *07.07.2015*

Abbreviated company name of the issuer: *ПАО "МРСК Центра"*

Effective date of the current abbreviated company name: *07.07.2015*

*The issuer's charter registered the name in a foreign language*

Name of the issuer in a foreign language

Name of the issuer in a foreign language: *"Interregional Distribution Grid Company of Centre", Public Joint-Stock Company (IDGC of Centre, PJSC)*

Effective date of the name: *07.07.2015*

*Full or abbreviated name of the issuer (name for non-commercial organization) is similar to names of another legal entity*

Name of such legal entities:

*Interregional Distribution Grid Company of Centre and Volga Region, Public Joint-Stock Company (IDGC of Center and Volga Region, PJSC); Interregional Distribution Grid Company of Urals, Open Joint-Stock Company (IDGC of Urals, OJSC); Interregional Distribution Grid Company of Volga, Public Joint-Stock Company (IDGC of Volga, PJSC); Interregional Distribution Grid Company of the South, Public Joint-Stock Company (IDGC of South, PJSC); Interregional Distribution Grid Company of North Caucasus, Public Joint-Stock Company (IDGC of North Caucasus, PJSC); Interregional Distribution Grid Company of Siberia, Public Joint-Stock Company (IDGC of Siberia, PJSC); Interregional Distribution Grid Company of the North-West, Public Joint-Stock Company (IDGC of North-West, PJSC).*

Explanations necessary for avoidance of confusion of the stated names:

*In order to avoid mixture of the specified names, it is necessary to pay special attention of a component of full and abbreviated names of the given organizations specifying regions of their location - Centre, Centre and Volga Region, Urals, Volga, South, North Caucasus, Siberia, North-West.*

*The issuer's business name (name for non-commercial organisation) was registered as the trademark or service mark*

Information on registration of the indicated trademarks:

*11 February 2010, the trademark of IDGC of Centre, JSC was registered in Russian (registration certificate № 400905). 21.03.2019 changes to the certificate for the trademark were registered. Trademark owner: Interregional Distribution Grid Company of Centre, Public Joint-Stock Company, 127018, Moscow,*

*2nd Yamskaya str., 4 (RU). The term of the exclusive right to the trademark was extended until 02.02.2029.*

*18 February 2010 - the trademark is registered in English (certificate of registration № 401660) - IDGC of CENTRE. 21.03.2019 changes to the certificate for the trademark were registered. Trademark owner: Interregional Distribution Grid Company of Centre, Public Joint-Stock Company, 127018, Moscow, 2nd Yamskaya str., 4 (RU). The term of the exclusive right to the trademark was extended until 02.02.2029.*

All previous names of the issuer within the time period of its existence

Full company name: *Joint-Stock Company "Interregional Distribution Grid Company of Centre and North Caucasus"*

Abbreviated company name: *IDGC of Centre and North Caucasus, JSC*

Date of the name introduction: *17.12.2004*

Grounds for the name introduction:

*Order of the Russian joint-stock company of power and electrification UES of Russia No. 154-r dated 09.12.2004 (the sole founder) relating to establishment of Joint-Stock Company «Interregional distribution company of Centre and North Caucasus»; the Company is incorporated by Interdistrict inspection of Ministry of Taxation of the Russian Federation No.1 in Tver region – Certificate of State Registration of Legal Entity Series 69 No.000939402 dated 17.12.2004.*

Full company name: *"Interregional Distribution Grid Company of Centre", Joint-Stock Company*

Abbreviated company name: *IDGC of Centre, JSC*

Date of the name introduction: *06.08.2007*

Grounds for the name introduction:

*18.07.2007 under the decision of the Extraordinary General Meeting of Shareholders of IDGC of Centre and North Caucasus, JSC the Company's Articles of Association in a new edition were approved with the renaming of the Company to "Interregional Distribution Grid Company of Centre", Joint-Stock Company (abbreviated name - IDGC of Centre, JSC). The Articles of Association in a new edition was registered by the Interdistrict Inspectorate of the FTS of Russia #46 in Moscow on 06.08.2007.*

### **3.1.2. Data on the state registration of the issuer**

Primary state registration number of the legal entity: *1046900099498*

Date of state registration: *17.12.2004*

The name of registering body: *Interdistrict inspection of the Ministry of the Russian Federation for taxes and tax collections No. 1 in the Tver region*

### **3.1.3. Data on creation and development of the issuer**

*There were no changes in the information of this paragraph in the reporting quarter*

### **3.1.4. Contact information**

The issuer's location

*Moscow, Russia*

The issuer's registered office, specified in the Unified State Register of Legal Entities

*119017 Russian Federation, Moscow, Malaya Ordynka St., 15*

### **3.1.5. Taxpayer identification number**

*6901067107*

### **3.1.6. Branches and representative offices of the issuer**

Changes that have occurred in the reporting period in the branches and representative offices of the issuer, in the case of changes in the reporting quarter, the name, the location of the branch or representative office, surname, name, patronymic of its head, the term of the power of attorney issued to him or her - as well as information on such changes

*In the 4th quarter of 2019 the following was changed:*

*- Branch of IDGC of Centre, PJSC - "Lipetskenenergo": Konstantin Alexandrovich Drachuk was appointed Deputy General Director – Director of the branch. The power of attorney is valid until 30.04.2020.*

*- Branch of IDGC of Centre, PJSC - "Kostromaenergo": the power of attorney relating to Deputy General Director – Director of the branch D.P. Prokhorov is valid until 30.04.2020.*

*- Branch of IDGC of Centre, PJSC - "Tambovenergo": the power of attorney relating to Deputy General Director – Director of the branch N.V. Bogomolov is valid until 30.04.2020.*

## **3.2. Main economic activities of the issuer**

### **3.2.1. Core economic activities of the issuer**

Code of the main industry line of business of the issuer

Codes under the All-Russian Classifier of Economic Activities (OKVED)
35.12

OKVED Codes
33.13
35.13
52.10.21
61.10.1
70.10.1
70.10.2
70.22
85.42

### **3.2.2. Core economic activity of the issuer**

*It is not indicated in the 4th quarter*

### **3.2.3. Materials, goods (raw material) and suppliers of the issuer**

*It is not indicated in the 4th quarter*

### **3.2.4. Sales markets of products (works, services) of the issuer**

Main markets, in which the issuer performs its activity:

*IDGC of Centre on the territory of 11 regions (Belgorod, Bryansk, Voronezh, Kostroma, Kursk, Lipetsk, Orel, Smolensk, Tambov, Tver, Yaroslavl) provides electricity transmission services to 17 suppliers of last resort; 137 retailers; 155 end customers and 1 territorial grid company.*

*The share of the given customers in the total revenue of IDGC of Centre from the electricity transmission services for 4Q 2019 is as follows:*

- suppliers of last resort – 73,6 %;*
- retailers – 16,5 %;*
- end customers – 6,3 %,*
- territorial grid company "BryanskElectro" LLC – 1,6 %.*

*In accordance with Orders of the Ministry of Energy of Russia dated 29.11.2018 №1107 (for the period from 01.12.2018 to 30.11.2019), dated 13.11.2019 №1214 (for the period from 01.12.2019 to 30.11.2020), IDGC of Centre has been performing the functions of the electricity supplier of last resort in the service area of the branch of IDGC of Centre-Tverenergo and the territorial grid company "OPORA" LLC in the cities of Nelidovo, Toropets, Andreapol and Western Dvina in the Tver region.*

*IDGC of Centre provides grid connection services to residential customers (private sector), legal entities (small, medium and large business), territorially adjacent grid companies, budget organizations, generating entities.*

*Factors, which can have negative influence on sale of products (works, services) by the issuer, and possible actions of the issuer on reduction of such influence:*

*Possible factors, which can have negative influence on the sale of services on electric power transmission of IDGC of Centre, are:*

- high degree of dependence on financial stability (solvency) of suppliers of last resort;*
- grid connection of consumers from grids of territorial grid companies, located in territories of the issuer's service area.*

*To reduce influence of these factors IDGC of Centre takes measures on conclusion of «direct» contracts for services on electric power transmission with end customers serviced by suppliers of last resort and retailers.*

*Possible factors that may adversely affect the sale of electricity by IDGC of Centre are:*

- reduction of the customer base at the expense of possible entrance of large consumers and power supply companies to the wholesale market of electric energy (power), transition of consumers to competing power sales organizations;*
- transfer of the status of a supplier of last resort to a power sales organization on the basis of the ongoing tender of the Russian Energy Ministry for selection of a supplier of last resort.*

*To minimize the negative factors and improve its competitive positions, IDGC of Centre develops and improves the quality of services related to the delivery of electricity.*

### **3.2.5. Data on the issuer's licenses (permits) to perform some types of work**

*The issuer has no permissions (licenses) information on which is required to be specified in the issuer's report (quarterly report)*

### **3.2.6. Data on activities of certain categories of issuers of securities**

*The issuer is not a stock investment fund, an insurance company or a credit institution, a mortgage agent, a specialized company.*

### **3.2.7. Additional requirements to issuers whose main activity is the extraction of minerals**

*The main activity of the issuer is not extraction of minerals. The issuer does not have subsidiary organizations whose main activity is extraction of minerals.*

### **3.2.8. Additional requirements to issuers whose main activity is the provision of telecommunications services**

*The main activity of the issuer is not provision of telecommunications services.*

### **3.3. Plans of the future activity of the issuer**

*There were no changes in the information of this paragraph in the reporting quarter*

### 3.4. Participation of the issuer in bank groups, bank holdings and associations

Name of the group, holding or association: *SRO Association "EnergoProfAudit"*

Term of participation of the issuer: *16.06.2011*

Role (place) and functions of the issuer in the organization:

*Due to the cancellation of the licensing of activities in the field of energy audit, membership in the SRO Association "EnergoProfAudit" is necessary to conduct a compulsory survey in accordance with Federal Law No. 261-FZ of 23.11.2009 "On Energy Saving and on Improving Energy Efficiency and on Amending Certain Legislative Acts of the Russian Federation".*

Name of the group, holding or association: *Union "Moscow Chamber of Commerce and Industry"*

Term of participation of the issuer: *25.06.2015*

Role (place) and functions of the issuer in the organization:

*MCCI is the largest association of entrepreneurs, interacts with all CCIs of the Russian Federation, which allows the Company without participation in the CCIs of regions of its service area to participate in the activities of these chambers and to interact with the authorities of the subjects of the Russian Federation. The possibility of quick interaction on contentious issues. Participation in norm-setting activities.*

Name of the group, holding or association: *SRO Union "ENERGOSTROY"*

Term of participation of the issuer: *07.12.2009*

Role (place) and functions of the issuer in the organization:

*Compliance with the legislation of the Russian Federation in the part of the execution of the functions of the Customer, in the course of construction and installation works, construction, reconstruction and overhaul of capital construction facilities.*

Name of the group, holding or association: *Association – "Energoprojekt"*

Term of participation of the issuer: *09.02.2011*

Role (place) and functions of the issuer in the organization:

*Compliance with the legislation of the Russian Federation in the part of the execution of the functions of the Customer, when developing design solutions (project documentation) for the construction, reconstruction and overhaul of capital construction facilities.*

Name of the group, holding or association: *Non-commercial partnership "National Committee CIREAD"*

Term of participation of the issuer: *27.04.2012*

Role (place) and functions of the issuer in the organization:

*Obtaining information on advanced foreign technological developments. The possibility of conducting analytical studies of innovative technologies for the purpose of testing in the framework of pilot projects.*

Name of the group, holding or association: *Association "NP TCO"*

Term of participation of the issuer: *11.03.2014*

Role (place) and functions of the issuer in the organization:

*Increase of the efficiency of the activity of IDGC of Centre, PJSC, including with regard to the promotion of legislative initiatives aimed at improving the mechanism of interaction between subjects of the electric power industry in the retail electricity market.*

Name of the group, holding or association: *Association "NP Market Council"*

Term of participation of the issuer: *24.12.2012*

Role (place) and functions of the issuer in the organization:

*Ensuring that IDGC of Centre, PJSC fulfills the functions of a supplier of last resort.*

Name of the group, holding or association: *Non-Profit Partnership Russian Association for Public Relations (RASO)*

Term of participation of the issuer: *19.12.2006*

Role (place) and functions of the issuer in the organization:

*Access to the shared knowledge, experience and competence and resources of the association, which allows finding effective solutions to complex communication problems, as well as implementing complex projects.*

Name of the group, holding or association: *All-Russian Industry Association of Electric Power Employers "Energy Employer Association of Russia"*

Term of participation of the issuer: *05.08.2008*

Role (place) and functions of the issuer in the organization:

*Participation to develop a system of social partnership, pursue a coordinated policy of the Company in the field of employment, wages, labour protection, social insurance, retirement benefits for employees, solving other issues of a socio-economic nature and labour relations*

Name of the group, holding or association: *Non-profit partnership "Scientific and Technical Council of the Unified Energy System"*

Term of participation of the issuer: *18.07.2019*

Role (place) and functions of the issuer in the organization:

*assistance in the formation of science-based technical and economic policies in the Unified Energy System of Russia*

Name of the group, holding or association: *SRO Association "Centrizyskaniya"*

Term of participation of the issuer: *22.10.2019*

Role (place) and functions of the issuer in the organization:

*admission to engineering surveys (first level of responsibility).*

### **3.5. Controlled economic entities of the issuer which have significance for it**

*There were no changes in the information of this paragraph in the reporting quarter*

### **3.6. Composition, structure and value of fixed assets of the issuer, information on plans for the fixed assets purchase, replacement, retirement, as well as on all facts of the issuer's fixed assets encumbrance**

*It is not indicated in the 4th quarter*

## **Section IV. Data on financial and economic activities of the issuer**

### **4.1. Results of financial and economic activities of the issuer**

*It is not indicated in the 4th quarter*

### **4.2. Liquidity of the issuer, sufficiency of the capital and circulating assets**

*It is not indicated in the 4th quarter*

### **4.3. Financial investments of the issuer**

*It is not indicated in the 4th quarter*

### **4.4. Intangible assets of the issuer**

*It is not indicated in the 4th quarter*

### **4.5. Data on the policies and expenses of the issuer in the field of scientific and technical development, concerning licenses and patents, new developments and researches**

*It is not indicated in the 4th quarter*

### **4.6. Analysis of tendencies of development in the sphere of the core activity of the issuer**

*Electric grid connection defines development of the Company, growth of volume of electric energy transmission, expansion of geographical covering of territories with electric grids, and increase in*

*capitalization. Tendency of development of the given kind of activity is defined by development of regions of the service area of the issuer: development of the industry, agriculture, household sector, construction of housing, etc., it allows to estimate them as favourable at any conditions.*

*For creation of favourable conditions of development of regions the issuer actively cooperates with local authorities and large consumers in the sphere of planning and increasing the investment attractiveness of the region. The result of this work is steady demand for electric capacity, which is the ground for formation of the issuer's investment program. Given the recent decline in investment in fixed assets and a reduction in foreign investment in the economy of the Russian Federation, there is a risk that demand for connection to the power grid from large applicants in the territory of the company will be reduced. With respect to applicants, the Government of the Russian Federation is implementing a policy aimed at increasing the availability of energy infrastructure in order to create favourable conditions for small and medium-sized businesses, as well as to increase the investment attractiveness of the regions.*

*According to the results of 2019, the decrease in the volume of electricity transmission services provided by IDGC of Centre compared to the same period of last year amounted to 1.4%, which is associated mainly with a partial transfer of the load of consumers to FGC's grids and own generation, and with a decrease in electricity consumption by the industrial and fuel and energy complex.*

#### **4.7. Analysis of factors and conditions influencing the issuer's activity**

*Key factors in the activities of the issuer are:*

- factors affecting the state of the economy as a whole (the GDP growth, the consumer price index, the interest rates to attract credit resources);
- the state regulation of tariffs. Main activities of the issuer (electric energy transmission and grid connections) are regulated by the state through the establishment of appropriate tariffs for these services. Regulatory approval of tariffs for services of the issuer directly influences volumes of received proceeds. Establishment of tariffs below the economically justified level may lead to underfunding by tariff sources of the current activity and investment program of the issuer;
- a trend in power consumption. During 2019, there is a decrease in the volume of services rendered for the transmission of electricity by IDGC of Centre against last year, which is associated mainly with a partial transfer of the load of consumers to FGC's grids and own generation, and with a decrease in electricity consumption by the industrial and fuel and energy complex.
- the current condition of the industry. The state of the industry directly affects the issuer's operations and is currently characterized by substantial depreciation of fixed assets, lack of investment in the industry, a problem of non-payment, the tariff policy, aimed at curbing the growth of tariffs for products and services of natural monopolies.

*The actions taken by the issuer and actions to be taken by the issuer in the future for an effective use of the given factors and conditions.*

The issuer together with the federal and regional bodies of regulation of tariffs takes measures to amend the legislation of the Russian Federation in the sphere of pricing on services of natural monopolies to protect the interests of distribution grid companies at establishment of tariffs for electric energy in the retail market.

The issuer works on the economic feasibility of expenses included in tariffs, takes measures to reduce costs and optimize the investment program.

The issuer also implements a set of measures to diversify the package of services to compensate for drop in consumption in the medium term. It implements the latest tools to manage the Company, automates key functions to increase efficiency of management decision-making.

*Essential events/factors which may greatly affect an opportunity of achieving by the issuer in the future the same or higher results in comparison with the results obtained for the last reporting period, and also probability of occurrence of such events (occurrence of factors).*

*Factors that have a negative impact on the activities of the issuer:*

1. There is a reduction of power consumption due to the optimization of customer circuits of external power supply, including connection of facilities to the UNPG grids, construction of own generation.
2. Reducing demand for grid connection.
3. Development of territorial grid organizations rendering grid connection services.
4. Increasing the number of privileged categories of applicants. The cost of grid connection for these groups of applicants does not cover all costs of power grid companies, which leads to the emergence of "shortfall in income".

5. Imperfection of the regulatory framework in the field of tariff regulation:

5.1. Indexation of tariffs for electricity transmission is based on forecasts of the Ministry of Economic Development of the Russian Federation (MED RF). The growth of tariffs according to the forecast of the Ministry of Economic Development does not reflect the real level of inflation and does not allow compensating all costs of the Company.

5.2. The current return mechanism in the tariff for electricity transmission of the investment component of grid connection does not allow compensating the costs in full, which forms a shortage of funds for the implementation of grid connection contracts.

6. High dependence on the financial stability (solvency) of applicants for grid connection;

7. The deterioration of payment discipline for electricity transmission services. Violation of payment discipline by unscrupulous retail companies led to the fact that they lost their status of a supplier of last resort in 2013. New suppliers of last resort, which received this status on a competitive basis, continue to practice the violation of contractual obligations in the payment for electricity transmission services.

8. Change in the cost of servicing loans. As a result of the growth of the key rate of the Bank of Russia there is growth in rates on loans of partner banks of IDGC of Centre.

9. Rising prices for the Company's suppliers of fuel, materials, outsourced services (rent, security, communications, etc.).

10. The regions do not have plans for the future development.

The probability of occurrence of these factors varies from medium to high, the duration of action - from medium to long term.

***Methods applied by the issuer, and ways to be applied by the issuer in the future for decrease in negative effect of factors and conditions influencing activity of the issuer.***

To reduce the negative impact of external factors the issuer has developed a set of measures to improve efficiency and financial sustainability in the current macroeconomic environment, including taking into account the changes in the regulation at the federal and regional levels:

1. Carrying out work on the inclusion of economically justified expenses and incomplete revenues in tariffs based on results of activities of previous years, previously not taken into account with the tariff regulation, including as a result of "smoothing" (redistribution over the years of the long-term regulatory period) of required gross proceeds to prevent a sharp fluctuation in the tariff growth.

2. Conclusion of "direct" grid connection contracts with end applicants.

3. Measures aimed at reducing the shortfall in income from privileged grid connections:

- an increase in connection fee for the "preferential" categories of applicants;

- accounting for the investment component for the reconstruction of the existing network in the fee for grid connection for all categories of applicants;

- application of penalties for non-use of power and/or payment for power redundancy.

4. Measures aimed at improving the payment discipline:

- claim-related work to collect overdue receivables and penalties for non-performance of contractual obligations for payment of services;

- improving the guarantee mechanism for retail companies regarding payment for electricity transmission services.

5. Measures to optimize the loan portfolio:

- implementation of the mechanism of the investment issue;

- lending for infrastructure sectors, including the Group of Companies of PJSC "Rosseti", on special terms and conditions;

- revision of the rate of return on invested capital.

***Significant events/factors that can improve the performance of the issuer, and the probability of their occurrence and their duration.***

The significant factor which within long-term perspective may have positive influence on results of the Company's activity is active innovative activity in the field of creation of the management system and implementation of the modern software products for management of distribution grid complex of the issuer. Besides, the active policy in the field of formation of the integral system of stakeholder relations is performed. The issuer holds regular meetings with representatives of the investment community for increase of the level of openness and transparency of business. Results of innovative activity will be estimated and put on the balance sheet of the issuer as intangible assets in the process of estimation performance. Duration of the given factor is considered as a constant process.

Besides, the essential factor which may have a significant positive influence on financial result is reduction of the high level of electricity losses in grids. The Company developed and realizes the program of energy

conservation and energy efficiency, within which an energy management system in accordance with the international standard ISO 50001:2011 was implemented and certified. The Company also implements its program of perspective development of electricity metering systems in the retail electricity market, which in the middle term will have a significant influence on changes of commercial losses towards their decrease. These factors will have a significant positive impact in the medium term.

#### 4.8. Competitors of the issuer

*The issuer operates electric power transmission and grid connection in 11 regions of Central Russia and provides electricity to large enterprises of industry, transport, agriculture, as well as the population of the regions.*

*In these markets the issuer holds a leading position.*

*The Company's share in the electricity transmission market (share of the required gross revenue (RGR) of the issuer in the RGR of the regions) in accordance with the tariff and balance decisions in 2019 is 85,7 %.*

*The Company's share in the grid connection market following the results of 2019 is 88,3 %.*

*In accordance with the current legislation IDGC of Centre refers to the subjects of natural monopolies, provides state-regulated activities and has no direct competitors. However, in large cities of the regions, where the issuer operates, there are other territorial grid organizations providing similar services on transmission and distribution of electricity, grid connection.*

*The largest enterprises providing the same services for connection to electric grids are territorial grid companies operating in major cities of regions of the service area, both commercial companies of various structures, and municipal enterprises of the housing and communal complex: LLC "BryanskElectro", LLC "KFK Energo", JSC "Kursk Electric Grids", JSC "LGEK", JSC "Oreoblenergo", JSC "Tambov Grid Company", JSC "Tambov Communal Systems", Municipal Unitary Enterprise "Tvergorelectro", LLC "Opora", OJSC "Rybinsk City Electric Grid".*

*In the Belgorod region, where city electric grids are leased or owned by IDGC of Centre, the market share is 100% (excluding large mono-consumers with their own electric grids).*

## Section V. Detailed data on the persons forming a part of governance bodies of the issuer, bodies of the issuer undertaking control over its financial and economic activities, and brief data on the staff (employees) of the issuer

### 5.1. Data on the structure and competence of the issuer's governance bodies

*There were no changes in the information of this paragraph in the reporting quarter*

### 5.2. Information on the persons forming governance bodies of the issuer

#### 5.2.1. Issuer's Board of Directors (Supervisory Board)

Full name: *Alexander Ivanovich Kazakov*

(*Chairperson*)

Year of birth: *1948*

Education:

*1971, Moscow Engineering and Economic Institute named after S. Ordzhonikidze, Qualification: Engineer-Economist.*

All positions occupied by this person in the issuer and other organizations for the last 5 years and currently, including secondary employment

#### **8.1.6. Data on credit ratings of the issuer**

In the case the issuer and/or securities of the issuer are assigned with credit rating (ratings) for each of the known for the issuer credit ratings for the last completed fiscal year, as well as for the period from the beginning of the year, before the end of the quarter the following is indicated

Entity of rating assignment: **the issuer**

Organisation that assigned the credit rating

Full business name: **Standard & Poor's**

Abbreviated company name: **S&P**

Location: **floor 7, bldg. 2, 4/7, Vozdvizhenka St., business-center "Mokhovaya", Moscow, 125009**

Description of a credit rating assignment method or the Internet page, on which information on the credit rating assignment method is placed (published) in free access:

**<http://www.standardandpoors.com>**

Value of the credit rating as of the date of completion of the reporting quarter: **"BB+/B" - outlook "Stable"**

History of change of values of the credit rating for the last 5 completed financial years, prior to the date of completion of the reporting quarter, and if the issuer performs its activity less than 5 years – for each completed financial year prior to the date of completion of the reporting quarter, indicating the value of the credit rating and the date of award (change) of the value of the credit rating

Date of assignment	Value of the credit rating
22.07.2019	"BB+/B" - outlook "Stable"
08.02.2018	"BB/B" - outlook "Stable"
02.06.2017	"BB-/B" - outlook "Positive"
21.03.2017	"BB-/B/ruAA-" - outlook "Positive"
25.07.2016	"BB-/B/ruAA-" - outlook "Stable"

**The assigned credit rating expresses the view of S&P on stable operating indicators of the Company, balanced dynamics of the debt load and high systemic significance for the regions of its activity and for Rosseti's Group.**

**In July 2019, S&P assigned the long-term and short-term credit rating at the level "BB+/B" with the outlook "Stable" to IDGC of Centre, PJSC.**

**The rating of long-term creditworthiness on the national scale at the level of "ruAA" was revoked in June 2017 on the initiative of the rating agency in connection with the termination of the assignment. The**

*assigned rating means that the Company has sustained results in its core business; the rating reflects expectations of the company's support from the parent company, the state-controlled company Rosseti, taking into account the "moderately" strategic importance of IDGC of Centre for Rosseti's Group of Companies.*

Entity of rating assignment: *the issuer*

Organization that assigned the credit rating

Full company name: *Joint Stock Company «Rating agency «Expert RA»*

Abbreviated company name: *Expert RA*

Location: *109240, Moscow, 13 building 2, Nikoloyamskaya street, floor/office/room 7/1/13*

Description of a credit rating assignment method or the Internet page, on which information on the credit rating assignment method is placed (published) in free access:

*[https://raexpert.ru/ratings/debt\\_inst/method](https://raexpert.ru/ratings/debt_inst/method)*

Value of the credit rating as of the date of completion of the reporting quarter: *"ruAA" outlook "Stable"*

History of change of values of the credit rating for the last 5 completed financial years, prior to the date of completion of the reporting quarter, and if the issuer performs its activity less than 5 years – for each completed financial year prior to the date of completion of the reporting quarter, indicating the value of the credit rating and the date of award (change) of the value of the credit rating

Date of assignment	Value of the credit rating
19.02.2018	"ruAA" outlook "Stable"

*The "ruAA" rating on the national scale is assigned to IDGC of Centre, PJSC. The assigned rating reflects the following opinion of the rating agency: the Company has a stable ownership structure, takes monopolistic market positions; the agency highly rates the quality of corporate governance, the level of disclosure, the low level of debt burden, and the forecast level of liquidity. In December 2019, Expert RA confirmed the credit rating of IDGC of Centre, PJSC at the ruAA level, the Stable outlook.*
