

ELECTRIC POWER INDUSTRY NEWS

Miners added Russian power

The total capacity of Russian mining companies in 2022 exceeded 500 MW. Against the background of the fall of the cryptocurrency market, such dynamics was facilitated by a decrease in the cost of equipment and the interest of internal customers. The beginning of 2023 sets up segment participants for continued growth against the backdrop of a recovery in the cryptocurrency market. However, it can be limited by the introduction of special tariffs for electricity and taxation of mining.
