DAILY MARKET REVIEW

ELECTRIC POWER INDUSTRY NEWS

The State Duma adopted the Federal Law on the target model for managing the demand for electricity

The State Duma of the Russian Federation adopted in the 3rd reading the federal law on the target model for managing the demand for electricity. It is expected that the bill will be sent to the Federation Council for consideration within 5 days, and then to the President of the Russian Federation for approval.

The document involves introducing amendments to the Federal Law "On Electric Power Industry" (and certain legislative acts of the Russian Federation) in order to create a legal basis for the functioning of aggregators for managing the demand for electrical energy in the Wholesale Electric Energy Market and ensuring the use of aggregation of demand and supply management in the electric power industry.

Power engineers of the Kirovenergo branch eliminated weather-related disruptions in the main 6-10 kV grid

By 7.35 pm Moscow time on 18 October 2023, specialists of the Kirovenergo branch completed work at power facilities in the main 6-10 kV grid, eliminating all technological violations after heavy rain, sleet and squally winds with gusts of up to 30 m/s. Currently, work is underway on individual requests from consumers on the 0.4 kV network, and power engineers are processing them promptly.
