DAILY MARKET REVIEW

ELECTRIC POWER INDUSTRY NEWS

Rosseti began accepting applications for the R&D program in 2025-2027

Rosseti began accepting applications for the research, development and technological work (R&D) program in 2025-2027, the group said in a statement. The company recommends that participants focus on developments aimed at import substitution of equipment and localization of advanced foreign solutions, increasing the efficiency of production activities, ensuring information security, introducing digital power grid technologies, intelligent diagnostic systems and electricity metering. Applications are accepted until 30 April 2024 through your personal account in the R&D Management system.

COMPANY NEWS

Igor Makovskiy: on election days the work of the electric grid complex is under special control of power engineers

At the operational meeting, General Director of Rosseti Centre - the managing organization of Rosseti Centre and Volga region paid special attention to ensuring reliable power supply to polling stations in 20 Russian regions on voting days.

During the election period, increased control over the operation of electric grid facilities has been established, all planned repairs and switching activities have been suspended, and security measures have been strengthened.
