Kilowatts of the future. The Russian energy storage market could reach RUB 706 billion by 2035

By 2030, the energy storage market could attract up to RUB 431 billion in investment, with total capacity projected to reach 3.7 GW. Consumers can use storage devices to reduce power bills and improve energy supply reliability. However, due to the high cost of such devices, demand will likely be limited to certain sectors, such as large data centres.
