

### ELECTRIC POWER INDUSTRY NEWS

#### The Electric Power Industry's fault database has been updated to reflect new regulatory requirements

JSC SO UES has launched an updated version of its information and management system for the Electric Power Industry's fault database (IMS "FDB"). The update is aimed at bringing the software used to investigate and systematize technological disturbances in the electric power industry into compliance with current industry regulations.

#### Tambovergo to modernize hundreds of power facilities in 2026

A large-scale repair campaign awaits the Tambov region's power grids in the coming year. The branch of Rosseti Centre - Tambovergo has approved a comprehensive work program aimed at improving the reliability of the power supply. Implementation of the entire program is aimed at significantly increasing the stability and uninterrupted operation of the regional electric grid complex.

#### Vladimirenergo's crews restored power supply to consumers on the main grid after the cyclone

As of 10:30 PM on 27 January, the technical disruptions in the 6-10 kV main grid had been resolved. Work is underway on individual customer requests in the 0.4 kV grid, and specialists are responding to them promptly. 29 crews, including 97 power engineers and 41 specialized vehicles, worked continuously to address the aftermath of the storm under the supervision of Vladimirenergo's Operational Headquarters.
