Rosseti provided electricity to a 100% localized cable car plant being built near Tver

Rosseti Centre’s specialists have completed work on connection to grids of a full-cycle plant for production of rope-transport systems. It is being built near the Zavidovo resort in the Tver region. The connection power was 1.5 MW. The idea of opening such an enterprise was supported by Russian President Vladimir Putin during his visit to the region in 2022. It is planned to produce 20 aerial cable cars per year. 400 jobs will be created.

Ryazanenergo celebrates 45 years since its formation

The history of the branch began on 25 April 1979. On this day, an order was issued by the USSR Ministry of Energy and Electrification on the creation of a regional energy department. Over the years of the enterprise’s existence, the power system of the Ryazan region has undergone significant changes, but the company’s priority remains ensuring reliable and high-quality power supply to consumers in the region. Today, Ryazanenergo is the largest resource supply organization in the region.
