

### ELECTRIC POWER INDUSTRY NEWS

#### Electricity exports from Russia exceeded 5.5 billion kWh for nine months

Electricity exports from Russia exceeded 5.5 billion kWh for nine months of 2024. This was reported to journalists by Alexandra Panina, a member of the Management Board of PJSC Inter RAO, on the sidelines of the All-Russian Tariff Conference.

“In principle, these are not bad results. 51% of our supplies go to Kazakhstan, and Mongolia is in the second place (about 17%). Unfortunately, there are still no significant supplies to China. We maintain supplies to China in the amount of about 113 MW on a regular schedule to an isolated zone,” Panina said.

It is still difficult to predict the results of 2024, the top manager said, noting that the company has a winter fourth quarter ahead, in which there is hope for an increase in supplies.
