They want to strengthen the protection of Russian fuel and energy facilities with additional types of military weapons

They want to strengthen the departmental security of facilities of the fuel and energy complex (FEC) of Russia with additional types of military weapons. The corresponding draft resolution of the Government of the Russian Federation was published on 10 August 2023. The document is intended to strengthen the security of fuel and energy facilities. Thus, it is proposed to add four new positions to the list of types and models of combat small arms, which departmental organizations can receive for temporary use from the National Guard.

COMPANY NEWS

Smolenskenergo's youth held an event on electrical safety in a children's camp

In the recreation camp "Fakel" in Krasny Bor, one of the educational events for children from the younger crew was held in August by the Youth Council of the branch of Rosseti Centre - Smolenskenergo. Power engineers told the children about their profession and held an interactive lesson on electrical safety. The children learned about the rules of safe behaviour near overhead power lines and transformer substations, as well as the correct handling of electricity in everyday life.
