The Federation Council approved the law to launch a demand management mechanism in the electricity sector

The Federation Council approved the Federal Law "On Amendments to the Federal Law "On Electric Power Industry" and certain legislative acts of the Russian Federation", the press service of the Federation Council of the Russian Federation reported. Deputy Minister of Energy of the Russian Federation Anastasia Bondarenko noted that changes to the legislation on the electric power industry are aimed at creating a legal basis for the functioning of the system for managing the demand for electric energy. In particular, a new legal status of "electricity demand management aggregator" is approved and mandatory disclosure of information on the total economic effect of the provision of consumption management services is introduced.
