

ELECTRIC POWER INDUSTRY NEWS

Generators advocate extending the modernization program for old thermal power plants until 2042, the Market Council and System Operator support them

Power companies, having nearly completed the selection of investment projects for the modernization of old thermal power plants through increased payments from the energy market, are discussing maintaining this cash flow until at least 2042. The total capacity renovation volume could exceed 40 GW, and the industry's total investment needs for this period were previously estimated at RUB 6-7.8 trillion.

Energy of the future: representatives of Smolenskenergo's construction crews visited the "heart" of the energy grid

As part of the career guidance and human resource development program, a tour was held for representatives of the student construction crews "Energet" and "Einstein" of the branch of Rosseti Centre - Smolenskenergo. They visited the Grid Control Centre (GCC), the high-tech "heart" of the region's power system.

Power supply restored to 90% of the Ryazan region's consumers interrupted by severe weather

Ryazanenergo's specialists restored power to most of the Ryazan region's settlements affected by the severe weather. The power engineers are quickly responding to individual requests from consumers in the 0.4 kV grid. A thunderstorm front with heavy rain, squalls and hail that struck the region from 4 to 5 July caused downed wires and trees falling on power lines.
