COMPANY NEWS

Belgorod power engineers of Rosseti Centre to improve the power supply of 65 settlements in the region

This year, power engineers of the branch of Rosseti Centre - Belgorodenergo will modernize the power grid infrastructure in 65 settlements of the region, including Belgorod and Stary Oskol. About 100 thousand residents of the region will feel the improved quality of power supply. Reconstruction of electrical networks and substations is planned in sections where complaints and calls from residents about the quality of power supply are recorded.

The branch of Rosseti Centre and Volga region - Nizhnovenergo continues implementing the repair program

It is already possible to summarize the interim results of the work for the first four months of the current year and evaluate the achieved results. The branch's repair plan from the beginning of the year to the end of April was implemented in a timely manner and in full. During this period, 136 km of power transmission lines of all voltage classes and 767 transformer substations were brought into proper technical and aesthetic condition.
