

ELECTRIC POWER INDUSTRY NEWS

Investments in the electric power industry positively affect the Russian economy

Price changes for electricity in 2012-2021 were not a limiting factor for the development of end users, including industrial production. During the XXIII Yasinsk (April) International Scientific Conference on the Development of the Economy and Society, the Institute for Economics and Regulation of Infrastructure Industries of the National Research University Higher School of Economics presented an expert report: "Analysis of the impact of prices and investments in the electric power industry on the development of the economy of Russia and regions."
