

ELECTRIC POWER INDUSTRY NEWS

FAS granted new powers to oversee energy tariffs

The Russian government has established a procedure for allocating “required gross revenue” among grid companies when addressing violations in the electric power sector. These new rules expand the authority of the Federal Antimonopoly Service (FAS), enabling the agency to determine economically justified revenue levels and overturn tariff decisions that were made in violation of regulations.

Rosseti Centre and Volga region shut down illegal cryptocurrency mining operation in the Vladimir region

Joint efforts by specialists from the branch of Rosseti Centre and Volga region - Vladimirenergo and law enforcement authorities have led to the discovery and termination of an illicit “gray” cryptocurrency mining operation in the Petushinsky municipal district of the Vladimir region. The operator had illegally connected energy-intensive cryptocurrency mining equipment to the power grid, utilizing two separate, independent sources of electricity.
