ELECTRIC POWER INDUSTRY NEWS

Russia created the first wireless charging system for electric vehicles

ITMO scientists and the Yablochkov company have developed the first wireless charging system for electric vehicles in Russia. It does not require bulky connectors, wires, is simple and safe to use. With the help of the system, it will be possible to charge any electric transport, from an electric car to an electric bus. All you need to do is park your vehicle. In the future, the technology can be introduced into the urban environment, for example, at public transport stops or parking lots.
