Belgorodenergo initiated the blocking of sites advertising devices for stealing electricity

Employees of the security department of the branch of Rosseti Centre - Belgorodenergo identified 20 Internet resources containing information on methods of stealing electricity through unauthorized interference with the operation of metering devices. An application for recognition of information prohibited for distribution in the Russian Federation and restriction of access to it was sent to the supervisory authorities. Belgorodenergo warns that consumers will be punished for interfering with the operation of meters to underestimate readings.
