SO UES started developing a draft scheme for development of electric power systems of the Russian Federation until 2028

System Operator of the UES (SO UES) has begun developing a draft Scheme and Program for the Development of the Electric Power Systems of Russia (the Scheme and Program) for 2023–2028. The Scheme and Program is a key document within the framework of the new system for the prospective development of the electric power industry and is replacing the schemes and programs for the development of the unified energy system (UES) of Russia and the regional electric power industry. In accordance with the new version of the law “On the Electric Power Industry” adopted in June, the Scheme and Program will be a single document from 2023 that combines development plans for all these systems.
