

### ELECTRIC POWER INDUSTRY NEWS

#### The System Operator presented a view on the development of the energy system in the context of an increasing share of low-carbon generation

Director for Energy Markets and External Relations of the System Operator Andrey Kataev took part in the round table "Renewable and nuclear generation: synergy of achievements as the best solution" within the framework of the XIII International Forum ATOMEXPO-2024.

The main topic of discussion was the development of the Russian energy system, taking into account the growing share of low-carbon generation in the foreseeable future. The round table participants discussed the optimal combination of various types of low-carbon generation and their effective integration into the energy system. Experts paid special attention to the prospects for the construction of significant volumes of renewable energy generation in the Far East.

### COMPANY NEWS

#### Kurskenergo reminds children of electrical safety rules

During the holidays, the risk of electrical injury among children and adolescents increases. In this regard, specialists from the branch of Rosseti Centre - Kurskenergo remind schoolchildren and parents of the rules of safe behaviour near power facilities. Power transmission lines (PTLs) and transformer substations are objects of increased danger. Following a few simple but vital rules will help avoid tragedy.

#### The Udmurtenergo branch has been placed on high alert

Due to worsening weather conditions (rain, sleet, wind speed up to 18 m/s), power engineers of the branch of Rosseti Centre and Volga region - Udmurtenergo have been transferred to high alert mode. 116 crews are ready for a quick response: 559 specialists and 182 special vehicles. The branch also has at its disposal 31 backup power sources with a total capacity of more than 2.5 MW, which can be used to supply electricity to socially important facilities in the region.
