

ELECTRIC POWER INDUSTRY NEWS

Pavel Snikkars: the role of the regions of the Russian Federation under the new planning system in the electric power industry remains very important

The role of the regions of the Russian Federation under the new planning system in the electric power industry remains significant, they perform the most important functions - they form large investment projects and provide initial data, Pavel Snikkars said at an all-Russian meeting on changes in planning for long-term development in the industry.
