FAS unveils a draft law on unified principles of tariff regulation

The Federal Antimonopoly Service (FAS) of Russia has presented a draft federal law "On the Principles of State Regulation of Prices (Tariffs)". This bill aims to unify the fundamental rules for state regulation of prices and tariffs across sectors including natural monopolies, electric power, heat supply, gas supply, and waste management. The [Document](#) was published on the federal portal for draft regulatory legal acts.

Rosseti tests a system for monitoring power line current loads based on weather conditions

Rosseti has begun testing an innovative solution designed to increase the transmission capacity of backbone power grids. The pilot project is being implemented at the training facility of the MES South (Southern Backbone Grids) branch of PJSC Rosseti, the company's press service reports. Implementing this technology will help minimize existing capacity constraints on power lines.
