The government simplified the procedure for connecting enterprises to power grids

The Government of the Russian Federation has simplified the procedure for organizations and individual entrepreneurs to submit an application and conclude an agreement to connect enterprises to electric grids. As reported on the Cabinet's website, a resolution correcting this procedure was signed by Prime Minister Mikhail Mishustin.

"The resolution provides for a reduction in the number of documents provided by applicants for connection of facilities to power grids. Now, when submitting an application for such a connection, business representatives will not have to provide an extract from the unified state registers of legal entities and individual entrepreneurs, as well as copies of their passport, if the application is submitted through the single portal of public services," the government explained.

Power engineers of Rosseti Centre and Rosseti Centre and Volga region are preparing for the spring flood

During the weekly operational meeting, General Director of the Companies, Igor Makovskiy, heard a report on the passage of floods in the area of operational responsibility of the energy company.

The power engineers carried out large-scale preparatory work, within the framework of which a set of measures was implemented to ensure reliable operation of electrical equipment during a flood. All branches carried out inspections of high-voltage line crossings across rivers, checking the condition of pole foundations and protection against ice drift.
