

ELECTRIC POWER INDUSTRY NEWS

Rosseti reported on its efforts to create a comprehensive digital architecture for its grid complex

At the International Forum "Electric Grids" (IFEG), a discussion entitled "Digital Transformation of Energy Resource Management: From Metering Systems to Predictive Analytics" was held with the participation of Eduard Sheremetsev, Deputy Minister of Energy of the Russian Federation. Konstantin Kravchenko, Deputy General Director for Digital Transformation at PJSC Rosseti, discussed priorities in import substitution for IT solutions and the creation of a comprehensive digital architecture for its grid complex.

COMPANY NEWS

Rosseti supplied electricity to the largest seed centre in the Orel region

Rosseti Centre laid over 10 km of power lines for the new seed centre built by Miratorg agricultural holding in the southwest of the Orel region. The grid connection capacity was 4 MW. The creation and development of a regional complex, which will produce over 15,000 tons of seed potatoes annually, will reduce dependence on imports and strengthen the country's food security.

The Ryazan branch of Rosseti Centre and Volga region received a certificate of readiness for the autumn-winter period

The Ryazanenergo branch has completed the entire range of necessary measures stipulated by its production programs. In preparation for winter, power engineers repaired 313 6-10 kV transformer substations and over 168 km of overhead power lines (OPL) of various voltage classes, replacing 28 km of bare wire with more reliable and safe self-supporting insulated wire.
