

ELECTRIC POWER INDUSTRY NEWS
REA of the Ministry of Energy of Russia presented scenarios for development of global energy until 2050

The Russian Energy Agency (REA) of the Russian Ministry of Energy presented current scenarios for development of global energy until 2050, the development of which has been carried out since 2023, the organization's press service reports.

Particular attention was paid to the "net zero" scenario, which involves achieving carbon neutrality in the global energy sector by 2050. The implementation of this plan is only possible with close cooperation and interaction between different countries.

Yarenergo held a tour for students of the Kostroma region

46 students of the Kostroma Energy College named after F.V. Chizhov visited power facilities of the branch of Rosseti Centre - Yarenergo, reports the InformBuro telegram channel.

The starting point in the tour program was the Yaroslavl Energy System Museum. There, the guys learned about the exploits of energy workers and key events in the development of the industry. At the Control Centre, the students got acquainted with the work of operating personnel, and studied the process of transmission and distribution of electricity at the 110 kV Severnaya substation. The feeding centre provides power supply to the Leninsky and Kirovsky districts of Yaroslavl.
