

ELECTRIC POWER INDUSTRY NEWS

FAS proposes to reduce energy tariffs for citizens with stove heating

Regulators are trying to encourage citizens to abandon stove heating in favour of electricity. The Federal Antimonopoly Service (FAS) has proposed giving an additional discount on electricity bills for residents of regions without gas supply. For now, the initiative may affect the Krasnoyarsk Territory, where the tariff in houses with stove heating will decrease by 47% as a result. But analysts doubt that the stated goals will be achieved and warn about the risks of increasing the burden on business and the development of illegal cryptocurrency mining in the household sector.

Power engineers of the Lipetsk region are preparing to work in bad weather conditions

Worsening weather conditions: showers, thunderstorms, hail in places, wind with gusts of up to 20 m/s, according to the Hydrometeorological Centre, are expected in the Lipetsk region from 5 to 7 June. In this regard, power engineers of the Lipetskenergo branch are taking increased control of the power supply to consumers in the region. The branch remains on high alert. 118 crews of Lipetskenergo are ready to quickly respond to consequences of bad weather: 347 specialists and 246 special vehicles.

The Udmurtenergo branch continues to operate in high alert mode

On the night of 4-5 June, a thunderstorm front passing through the region caused a number of local technological disruptions at power facilities in several districts of the Udmurt Republic. Udmurtenergo's specialists, who had been placed on high alert in advance, promptly restored power supply interrupted by the bad weather.
