At least 63 regions of the Russian Federation to introduce differentiated energy tariffs for the population in 2024, - FAS

In at least 63 regions of the Russian Federation in 2024, differentiated electricity tariffs for the population will be introduced. This follows from the statement of Maxim Palyanov, head of the department of antimonopoly control of the wholesale electricity market of the electricity regulation department of the Federal Antimonopoly Service of Russia, which he made on Thursday, 18 January, during an online meeting with the deputy chairman of the Duma Committee on Energy Valery Seleznev.

COMPANY NEWS

The Yarenergo branch helped provide electricity to residents of the settlement of Krasnye Tkachi during the repair of the substation of the "Elektroset" organization

Connection of consumers was carried out in stages. Socially significant facilities, including schools and kindergartens, were supplied with power first. Electricity is supplied using backup schemes; several streets are powered using backup power sources. Currently, there are 6 generators with a total capacity of 980 kVA in the settlement.
